Description

Job Title: Chief Technology Officer (CTO)
Location: Camden, North London (Hybrid)
Salary: Competitive + Equity Options
Industry: Fintech | Growth Stage Start-up

About Us:

We are a rapidly scaling Fintech company based in Camden, North London, on a mission to redefine how consumers and businesses manage, move, and multiply money. Backed by top-tier investors and driven by innovation, we've already made significant traction in the UK market and are poised for international expansion.

We're looking for a visionary **Chief Technology Officer (CTO)** to join our executive team, lead our technology strategy, and drive the next phase of our platform's evolution.

The Role:

As CTO, you will be responsible for shaping and executing our technology vision while ensuring scalable, secure, and customer-centric delivery. You'll lead a growing engineering and product team, influence strategic decision-making, and be pivotal in building a world-class Fintech product and culture.

Responsibilities

Key Responsibilities:

- **Technology Strategy & Vision**: Define and execute the technical roadmap aligned with business objectives, scalability, and innovation.
- **Leadership**: Build, inspire, and mentor high-performing engineering, DevOps, and product teams.
- **Architecture & Scalability**: Oversee the design and implementation of scalable systems and infrastructure to support rapid growth and international expansion.
- **Product Delivery**: Work closely with Product, Data, and Design teams to ensure timely, quality releases and seamless user experiences.
- **Security & Compliance**: Ensure the platform meets the highest standards of security, data protection (e.g., GDPR), and regulatory compliance (e.g., FCA).
- **Stakeholder Collaboration**: Act as a key member of the leadership team, collaborating with the CEO, CFO, and CPO to align technology with

company goals.

- **Investor Relations**: Support fundraising efforts with technical insight and help communicate our innovation strategy to investors and partners.

Qualifications

Ideal Candidate:

- Proven experience as a CTO or senior technology leader in a high-growth Fintech or related SaaS company.
- Strong background in software engineering, cloud infrastructure (AWS/GCP), microservices, and modern tech stacks.
- Experience scaling systems to support large user bases and high transaction volumes.
- Deep understanding of the UK financial regulatory landscape, including Open Banking, PSD2, and FCA compliance.
- Exceptional leadership, communication, and stakeholder management skills.
- Passionate about innovation, customer experience, and building exceptional teams and culture.

Job Benefits

What We Offer:

- Competitive salary + equity package
- Hybrid working model (with HQ in Camden, North London)
- Fast-paced, inclusive, and collaborative environment
- Opportunity to shape the future of Fintech and make a lasting impact
