

Part-Time Chief Information Officer (CIO)

Description

Our client is an innovative and rapidly growing tech startup based in the heart of London. We are committed to revolutionising. With a passionate and dynamic team, we've achieved significant milestones, and now we're looking for an experienced Chief Information Officer (CIO) to join us part-time and lead our technology initiatives.

As the Part-Time CIO, you will play a pivotal role in shaping our technology strategy and ensuring the successful execution of our IT initiatives. You will work closely with our executive team and cross-functional departments to drive innovation, enhance our technology infrastructure, and maintain our commitment to excellence.

Responsibilities

1. **Technology Strategy:** Develop and implement a comprehensive technology strategy aligned with our business objectives. Provide leadership in assessing emerging technologies and their potential impact on the company.
2. **Infrastructure Management:** Oversee the management and maintenance of our technology infrastructure, including servers, networks, and hardware. Ensure scalability, reliability, and security.
3. **Data Security:** Establish and maintain robust data security and privacy protocols. Protect sensitive company and customer information from cyber threats and breaches.
4. **Software Development:** Collaborate with the development team to deliver high-quality software solutions. Ensure projects are completed on time and within budget.
5. **Vendor Management:** Manage relationships with technology vendors and service providers. Evaluate contracts, negotiate terms, and optimize costs.
6. **Team Leadership:** Lead and mentor the IT team, fostering a culture of innovation, accountability, and continuous improvement.
7. **Budgeting and Cost Control:** Develop and manage the IT budget, ensuring efficient allocation of resources and cost control.
8. **Compliance and Regulation:** Stay up-to-date with relevant regulations and ensure the company's technology practices remain compliant.

Qualifications

- Proven experience as a CIO or similar role in a technology-driven environment, ideally within startups or fast-growing companies.
- Strong strategic thinking and problem-solving skills.
- Excellent leadership and team management abilities.
- Proficiency in IT infrastructure, cybersecurity, and software development.
- Knowledge of industry best practices and emerging technology trends.
- Exceptional communication and interpersonal skills.
- Bachelor's degree in Computer Science, Information Technology, or a related field (Master's degree preferred).
